WELCOME MESSAGE

3

Lars Aabakken
ESGE GASTRO 2009 Coordinator

Jean-Francois Rey
OMED GASTRO 2009 Coordinator

Dear Colleagues,

We are happy to welcome you to the ESGE/OMED activities at GASTRO 2009 in London!

OMED and ESGE are this year jointly responsible for the endoscopic content at GASTRO 2009 and we look forward to offering an interesting variety of features, including live demonstrations broadcast from three centres around the globe from Monday to Wednesday, diverse lectures throughout the week, plus interactive hands-on opportunities at the ESGE/OMED Learning Area.

This brochure will give you an overview of the endoscopy-related activities of GASTRO 2009 which we would like to encourage you to visit, and revisit. Most activities do not require pre-registration, so you are welcome to walk in at any time. As of Saturday, the ESGE/OMED Learning Area will be open to delegates.

We look forward to seeing you in London and hope that you will benefit from the offerings and the different kinds of interaction offered by OMED and ESGE, as well as our partners.

The first and foremost mission of OMED and ESGE is to promote good endoscopy and we welcome your help and interest in making it happen!

Sincerely,

A handwritten signature in blue ink, appearing to read 'L. Aabakken', written in a cursive style.

Lars Aabakken

A handwritten signature in blue ink, appearing to read 'J. Rey', written in a cursive style.

Jean-Francois Rey

10	• Lecture Theatre
11 - 14	Sessions

POSTGRADUATE TEACHING PROGRAMME

5

Following is an overview of the endoscopic content of the **Postgraduate Teaching Programme (PGT)** throughout Saturday and Sunday.

SATURDAY, NOVEMBER 21, 2009

11.00 - 13.00 h

PARALLEL SESSION 1 / PART 1 Diagnostic Endoscopy

- Oesophagogastroduodenoscopy
- Detection of early upper GI Neoplasia
- Upper GI EUS
- Colonoscopy
- Detection of early lower GI neoplasia
- Small bowel enteroscopy

11.00 - 13.00 h

PARALLEL SESSION 4 / PART 1 New techniques in colorectal surgery

- NOTES: Is anyone taking note?

14.00 - 16.00 h

PARALLEL SESSION 1 / PART 2 Therapeutic Endoscopy

- Management of early oesophageal neoplasia
- Management of early gastric neoplasia
- Palliation of advanced oesophageal neoplasia
- Polypectomy
- Endoscopic submucosal dissection
- Palliation of advanced colorectal neoplasia

15.00 - 16.00 h

PARALLEL SESSION 2 / PART 4 Imaging and treatment of fibrotic liver and pancreatic disease

- Interventional endoscopy

14.00 - 17.00 h

PARALLEL SESSION 3 / PART 2 GORD: Challenges and opportunities

- New endoscopic imaging modalities: What do they add?
- Endoscopic treatment of GORD: A critical reappraisal

POSTGRADUATE TEACHING PROGRAMME

6

SUNDAY, NOVEMBER 22, 2009

08.30 - 10.30 h

PARALLEL SESSION 5 / PART 1 AND 2

ERCP Biliary 1

- Cannulation of the papilla
- Endoscopic sphincterotomy and alternative techniques
- Cholangioscopy

ERCP Biliary 2

- Stone extraction
- Stenting
- Papillectomy

11.00 - 13.00 h

PARALLEL SESSION 5 / PART 3 AND 4

ERCP Pancreatic

- Pancreatic sphincterotomy (Major/Minor)
- ESWL and stone extraction
- Pancreatic stenting

Therapeutic EUS

- Drainage of pancreatic cysts and necrosectomy
- Drainage of abdominal abscesses
- Delivering therapy through EUS

08.30 - 10.30 h

PARALLEL SESSION 8 / PART 1

Oesophageal and gastric disorders

- Optimum treatment of primary achalasia: Surgery or dilatation?

14.00 - 16.00 h

PLENARY SESSION 2

New advances in the management of Upper GI Bleeding

- Life threatening haemorrhage from oesophageal and gastric varices
- Shifting sands: The management of bleeding peptic ulcers
- When should the radiologist and surgeon intervene and what should they do?
- NSAID/aspirin/clopidogrel users: What should I do after the bleed?

LIVE ENDOSCOPY

From Monday to Wednesday live video demonstrations will be broadcast from international centres in Hyderabad, London and Rome. Recognised for their outstanding reputation in delivering international education in the field of digestive endoscopy, these three centres are listed as official OMED Centres of Excellence.

The OMED honorary lectures listed below are delivered at each World Congress to commemorate Drs. Rudolf Schindler, Francois Moutier and Sadataka Tasaka

MONDAY, NOVEMBER 23, 2009

11.00 - 12.30 h

Video Case Session

The video case marathon has for years proven to be among the most popular items of international gastroenterology meetings. Based on submitted material, a selection of the most spectacular, educational and memorable video cases are shown and commented by expert panel participants.

14.00 - 17.15 h

Live Endoscopy via Satellite from OMED Centre of Excellence Asian Institute of Gastroenterology, Hyderabad, India
Director: Nageshwar D. Reddy

OMED Francois Moutier Lecture
Therapeutic endoscopy: From evidence-based medicine to craftsmanship (Guido Costamagna)

TUESDAY, NOVEMBER 24, 2009

08.30 - 12.30 h

Live Endoscopy via Satellite from OMED Centre of Excellence Wolfson Unit for Endoscopy, Harrow, UK
Director: Brian Saunders

OMED Sadataka Tasaka Lecture
Recent advances of electronic endoscope: Image-enhanced endoscopy (Hisao Tajiri)

WEDNESDAY, NOVEMBER 25, 2009

08.30 - 12.30 h

Live Endoscopy via Satellite from OMED Centre of Excellence Policlinico Universitario „A. Gemelli“, Università Cattolica del Sacro Cuore, Rome, Italy
Director: Guido Costamagna

OMED Rudolf Schindler Lecture
Endoscopy and the ugly duckling (Jerry Wayne)

ESGE/OMED LEARNING AREA

8

The European Society of Gastrointestinal Endoscopy (ESGE) and the World Organisation of Digestive Endoscopy (OMED) are joining forces to organise the ESGE/OMED Learning Area. As the name indicates, this area will serve endoscopic educational purposes and its doors are open to all GASTRO 2009 delegates. The aim of the ESGE/OMED Learning Area is to increase the awareness of diagnostic and therapeutic techniques and to offer delegates the possibility of practicing their skills. The main activities are outlined below. In past years the ESGE Learning Area has attracted increasing numbers of attendees and participants, especially for the scheduled activities. Several events are open on a walk-in basis, while others require registration.

HANDS-ON TRAINING ON BIOLOGIC MODELS (IN COOPERATION WITH ESGENA)

With access to state of the art endoscopic equipment and accessories and with personal doctor and nurse tutoring, participants will have the opportunity to perform techniques that are demonstrated and discussed in the endoscopic section of Postgraduate Teaching Programme.

Registration: The ESGE/OMED Hands-On Training sessions are open to all congress delegates and registration is open at the ESGE/OMED reception desk in the Learning Area starting Saturday, 10:00. Participation will be on a first-come-first-served basis. ESGE Individual Members can pre-register online via GASTRO 2009 registration and the ESGE website.

ESGE/OMED LEARNING AREA

SATURDAY, NOVEMBER 21, 2009

Techniques offered:

- EMR
- Hemostasis (Injection, Clipping, Varices Ligation)
- Polypectomy / Mucosectomy (stomach/colon) (Saline injection, Clip closure of small perforations, Stent placement (colon/oesophagus))
- ERCP

Afternoon

13.30 - 15.00 h	Session 1
15.30 - 17.00 h	Session 2

SUNDAY, NOVEMBER 22, 2009

Techniques offered:

- EMR
- Hemostasis (Injection, Clipping, Varices Ligation)
- Polypectomy / Mucosectomy (stomach/colon) (Saline injection, Clip closure of small perforations, Stent placement (colon/oesophagus))
- ERCP
- ERCP – Short wire systems

Morning

09.00 - 10.30 h	Session 3
11.00 - 12.30 h	Session 4

Afternoon

13.30 - 15.00 h	Session 5
15.30 - 17.00 h	Session 6

MONDAY – WEDNESDAY, NOVEMBER 23 – 25, 2009

ENDOSCOPIC TRAINING CENTRE

Open during exhibition hours.

This is a great learning environment to practice GI endoscopy on various models and simulators, to try capsule reading skills, or simply come by to have a closer look at the equipment and techniques available for endoscopic treatments.

This area is open during all hours of the exhibition. Each station is manned by skilled technicians ready to assist and actively give guidance. Check the signage in the ESGE/OMED Learning Area for special demonstration times.

ESGE/OMED LEARNING AREA

10

SATURDAY – WEDNESDAY, NOVEMBER 21 – 25, 2009

DVD LEARNING CENTRE

The DVD Learning Centre offers all delegates the opportunity to visit 18 stations where the latest teaching material may be viewed on video screens with headphone sound transmission.

Case studies from the ESGE DVD Encyclopaedia are complemented by select video submissions from OMED, ASGE and contributors from Japan. This offering is ideal for individual study and special interest.

SUNDAY – WEDNESDAY, NOVEMBER 22 – 25, 2009

LECTURE THEATRE

Small-forum discussions with experts: Experts in their fields focus on topics of special interest before a small audience. The number of participants is limited to 60 in order to improve the teaching output for the audience, who are encouraged to participate in the discussion period following each lecture.

The topics offered will be:

- Diagnostic EUS, EUS-FNA: Expert tips and tricks
- Variceal bleeding, Treatment and prevention
- Enhancing white light endoscopy in the upper GIT
- SEMS: Biliopancreatic system
- ERCP and EST: Expert tips and tricks
- Capsule endoscopy: Current role in small bowel
- Balloon enteroscopy
- Management of non-variceal upper GI bleeding
- Colonoscopy: Expert tips and tricks
- EMR or ablation in the oesophagus
- Therapeutic EUS: Expert tips and tricks
- EMR or ESD? The European approach
- SEMS: Utility in the upper GIT
- Endotherapy of chronic pancreatitis
- Polypectomy and EMR in the colon
- Endoscopic papillectomy

SESSIONS

MONDAY, NOVEMBER 23, 2009

- 11.00 - 12.30 h **Place of surgery in IBD**
- Dysplasia: Colonoscopy or colectomy?
- 11.00 - 12.30 h **Rectal cancer treatment**
- Pretreatment staging
 - Endoluminal therapy
 - Role of the specialized surgeon
 - Current state of neoadjuvant therapy
- 12.45 - 14.00 h **Lunch session**
- Endoscopic management of bariatric surgery complications
- 14.00 - 15.30 h **Barrett's oesophagus: A global perspective**
- Is Barrett's oesophagus a worldwide problem?
 - Working Party Report: Early recognition of Barrett's oesophagus related neoplasia: The BORN project
 - Can we prevent cancer, and if so, how?
 - New technologies and techniques: Do they work, and are they practical for all?
- 15.45 - 17.15 h **Upper GI bleeding and NSAIDs: Why do patients die, and how can we save them?**
- Why do patients die from Upper GI bleeds, and how can we improve outcome?
 - Preventing and treating aspirin/NSAID ulcers: How and in whom?
 - Best endoscopic treatment for bleeding ulcers; what does the evidence say?
 - Cardiovascular and other adverse effects of COX-2 selective and non-selective NSAIDs
- 15.45 - 17.15 h **Management of anorectal disorders: An update**
- Ileo-anal pouch: Surveillance and therapeutic trends

SESSIONS

12

TUESDAY, NOVEMBER 24, 2009

08.30 - 10.30 h

GORD treatment: Current problems and new solutions

- 25 years of PPI supremacy: Good and bad news
- Improving acid suppression: Is the best to come?
- Inhibitors of TLOSRS: Where are we today?
- Endoscopic treatment: The beginning of the end or the end of the beginning?
- Laparoscopic anti-reflux surgery: Does LARS last?

08.30 - 10.30 h

NOTES: Is there a future?

- The development and vision of NOTES
- Progress Report Europe (EURONOTES)
- Progress report North America
- Progress report Asia
- Progress report Latin America
- A surgeon's perspective
- A gastroenterologist's perspective
- Free paper

08.30 - 10.30 h

Intrahepatic gallstones

- Classification
- An Asian perspective
- Endotherapy
- The percutaneous approach
- Surgical resection

11.00 - 12.30 h

Autoimmune pancreatitis

- Clinical and immunological characteristics of AIP in Asia
- How to diagnose autoimmune pancreatitis?
- Imaging characteristics
- Therapeutic options

12.45 - 14.00 h

Lunch sessions

- ESD
- Branch type IPMN: When to observe, when to operate?
- Resistant GORD: Non-surgical management strategies

SESSIONS

13

14.00 - 15.30 h

Capsule endoscopy: From top to bottom

- Oesophagus
- Small bowel
- Colon
- New perspectives

14.00 - 15.30 h

Treatment of pancreatic cancer

- Molecular tools for early detection of pancreatic cancer
- Molecular tools for treatment stratification in pancreatic cancer
- Resection of pancreatic cancer: Is it all palliation?
- Endoscopic palliation in pancreatic cancer

15.45 - 17.15 h

Endoscopic complications: When to call the surgeon

- Retroperitoneal perforations after endoscopic sphincterotomy
- Necrotizing pancreatitis
- Upper GI perforations
- Colonic perforations
- The role of NOTES

15.45 - 17.15 h

Pancreatic cystic lesions

- Differentiating cystic lesions of the pancreas
- The role of EUS in differentiating pancreatic lesions
- Intraductal pancreatic mucinous neoplasms (IPMN)
- Surgical strategies for metastasized pancreatic tumours

SESSIONS

14

WEDNESDAY, NOVEMBER 25, 2009

08.30 - 10.30 h

CRC screening strategies

- Cascade guidelines for CRC screening in different healthcare systems
- Quality control in colonoscopy and implications for screening programmes
- The role CT colonography
- Molecular screening for colorectal cancer
- Working Party Report: Guidelines for evaluation of new screening tests for colorectal and gastric cancers

08.30 - 10.30 h

New frontiers in the management of colorectal cancer

- Imaging algorithms for detecting CRC recurrence
- The role of laparoscopy and fast track surgery
- Evolution of surgery for liver metastases
- Endoscopic stenting for palliation
- Targeted treatment and chemotherapy

11.00 - 12.30 h

Early oesophageal cancer and HGD: Advances in diagnosis and treatment

- Advances in endoscopic diagnosis: The end of blind quadrantic biopsies in Barrett's oesophagus?
- Confocal microscopy: Should it replace biopsy?
- Emerging endoscopic therapies for HGD and early cancer
- Minimally invasive surgery

12.45 - 14.00 h

Lunch sessions

- Self-expanding metallic biliary stents: Covered or uncovered?
- Balloon assisted endoscopy

11.00 - 12.30 h

CRC Surveillance and treatment of dysplasia and early Cancer

- Surveillance for sporadic colorectal neoplasia
- Best practice for neoplasia surveillance in IBD
- Endoscopic techniques for surveillance and treatment of dysplasia

14.00 - 15.30 h

Palliation of malignant gastroduodenal obstruction

- Metal stents for palliation
- Magnetic or pressure device anastomoses
- NOTES techniques
- Or maybe surgery?

ESGE/OMED would like to thank the following companies for their support to the teaching activities of ESGE/OMED at Gastro 2009 in London:

Special thanks for support of the Hands-on-Training Centre goes to:
