

OMED Contributors 2005-2009

We wish to thank all of our international endoscopy colleagues who have contributed to our activities over the past years and are actively supporting OMED on planned projects. We are grateful to them for the time, energy and interest that they have devoted to Working Parties, Symposia, Guidelines, Research Reports and other projects that OMED has been involved with and we are proud to publish a list of all those who have helped in this way.
